# G-PINE

## MULTI PURPOSE HARD SURFACE CLEANER/ SANITIZER CONCENTRATE

\*\*LONDON UNDERGROUND PART NO: 17812/417\*\*

\*\* FORD MOTOR CO LTD TOX NO: 106665\*\*

**G-PINE** effectively cleans, sanitizes and deodorizes in one operation. It is a concentrated blend of surfactants, non-caustic alkalis, sanitizers and solvents. G-Pine leaves a pleasant pine odour after use. The product will not scratch or stain. G-Pine can be used on walls, floors, paintwork, ceramic and vitreous ware in office buildings, factories, schools, lavatories, changing rooms etc., killing germs, cleaning and deodorizing. G-Pine is safe on metal and is a very effective cleaner of stainless steel escalators and lifts. Unlike other hard surface cleaners which tend to leave a matt finish, G-Pine leaves a sheen.

G-PINE is effective against both gram positive and gram negative bacteria and will inhibit the growth of moulds and yeasts.

### DIRECTIONS FOR USE:-

Use a dilution of between 1 and 5% in water depending on the degree of soiling. Apply by spray, brush or sponge. No need to rinse off. At 5% G-PINE is effective against most bacteria, yeasts and moulds.

### SAFETY PRECAUTIONS:-

For detailed health and safety information, request a hazard data sheet.

**PACKAGING** 5 and 25 litre drums.
