PERFORMANCE MX-1

DIESEL OIL ADDITIVE FOR MEDIUM AND HIGH SPEED ENGINES

Additive **PERFORMANCE MX-1** is designed for application in distillate-grade diesel fuel used in diesel engines.

PRODUCT DESCRIPTION

Additive **PERFORMANCE MX-1** is an oil soluble manganese complex that blends with diesel fuel.

ADVANTAGES

Additive **PERFORMANCE MX-1** significantly improves the rate and completeness of combustion with improvement in the engine's cycle efficiency and fuel consumption.

- Fuel consumption reductions of 5% to 9% - at comparable engine load conditions.
- Increased engine cycle efficiency.
- Reduced exhaust gas levels of unburned hydrocarbons and smoke.
- Reduced maintenance of fuel injectors, piston heads, cylinder liners, rings and valves.
- Reduced sulphur trioxide formation.
- Inhibits fuel tank corrosion.

PRODUCT HANDLING

Additive **PERFORMANCE MX-1** preferably to be supplied directly to the service tank after the purifier, at the rate of 1 litre per tonne of diesel fuel.

Normal precautions should be taken when handling the product. Contact with eyes or skin should immediately be washed off with water, In the case of contact with eyes, medical attention should be sought.

PACKAGING

Additive **PERFORMANCE MX-1** is supplied in 205 litre or 25 litre non-returnable steel containers. Contamination with water or continuous exposure to storage temperatures on excess of 65°C may result in product damage.
