## PERFORMANCE PGP2000

**\*\* HEAVY OIL AND GREASE REMOVER \*\***

FORD TOX. NO. : 153594

**PGP2000** is a heavy duty, biodegradable, hard surface cleaner which has been formulated for the cleaning of heavily contaminated floor areas in press shops and machine shops. Also suitable for the removal of oil, grease and grime from a multitude of hard surfaces including plant equipment and machinery.

### INSTRUCTIONS FOR USE

**PGP2000** is normally used in a floor scrubbing machines at a concentration of between 1-5%, although application by mop and bucket is equally effective. The level of **PGP2000 used** may be adjusted to suit a particular application, and for plant which is coated with stubborn greases (such as molybdenum and graphite based coatings) the material may be applied neat, with brushing if required, and be rinsed off with a water jet.

**PGP2000** is supplied as a highly concentrated, viscous slightly hazy liquid in 25 litres, 205 litres or IBC containers.

### PRECAUTIONS

Contact with skin & eyes should be washed off with water. Wear suitable protective clothing (pvc gloves, boots etc) when handling the above product. For detailed health and safety information please request a hazard data sheet.
