## PERFORMANCE HAND CARE PRODUCTS

### BEADED RED HAND GEL

#### PRODUCT:

Beaded Red Hand Gel is a red gel skin cleanser formulated to remove the most severe industrial grime, oil and grease in complete safety. Beaded Red Hand Gel with polymer beads is paramount for its quality, mildness and effectiveness.

#### PROPERTIES:

Effective and suitable for the heaviest soiling.  
Can be used safely day after day because of its mildness.  
Works effectively in hot, cold, hard and soft water.  
No smell left on the hands after use .  
More economic in use then many other gel handcleansers.  
Dispenser available to provide economy and reduce risks of cross-infection.  
The massage action of the polybeads acts like a light scrubbing brush to aid skin cleansing.  
The polythene beads do not cause drain blockage .  
Contains both emollient and moisturising ingredients to maintain good skin condition

#### APPLICATION:

Beaded Red Hand Gel with polymer beads should be massaged on the affected area of skin without the use of water. The skin should then be rinsed with clean water and dried thoroughly on a towel or tissue. Suitable for skin cleansing on all parts of the body. A 5 gram application is sufficient to clean hands in most circumstances. Wall mounted dispensers, keg pumps and stands are available.

#### TECHNICAL DATA:

Appearance/State @ 20°C:	Red Gel	Miscibility with water:	Miscible/washable
Odour	Mild Orange Fragrance	Miscibility with solvents:	Petroleum Solvent
T.A.V. IPIA mgKOH/g:	20.5-22.5 on base	Boiling Point/Range(°C):	>100
Specific GRAVITY(water=1):	1.0	Freezing/Melting Point(°C):	mp 58-73
pH:	8.8-9.8	Vapour Pressure @ 20°C:	Water=18 mm Hg
Viscosity @ 40°C (mm <sup>2</sup> /sec):	n/a	Vapour Density(Air=1):	n/a
Evaporation Rate:	n/a	Acidity/Alkalinity	n/a

#### COMPOSITION/COMPATIBILITY:

A linear hydrocarbon fraction of extremely low aromatic (refined petroleum distillate), content in combination with naturally derived soaps (coconut diethanolamide) and the mildest synthetic actives. It also contains an emollient

humectant, inorganic water softening agent, preservative and perfume. Shelf life of up to 6 months. Throughout the gel polythene beads are dispersed. This product meets all current legislation for disposal and biodegradability in the environment. Store between 0 and 25°C. Avoid extremes of temperature.

**SAFETY PRECAUTIONS:** Request a hazard data sheet.
